June 28, 1982.

Dear Directors of Polish Home,

The first six months of this year have been trying ones for our Club. In appraising our buildings, we find that we are faced with many major repairs. So many things have been neglected in the past years, that we must now face reality and see the necessity of these repairs and get them done soon.

Some of the smaller jobs could be done by volunteers from among the directors. If we could do the cleaning and painting ourselves, we could save a considerable amount of money. I am aware that major repairs must be done by professionals and I will look around for the best prices and services available.

In order to accomplish these projects, I must have total cooperation from all directors. When we were elected to the Board of Directors, we made a commitment to serve the Polish Home. Some of us are serving, while others are only directors by name. Your name on the list of Board of Directors does not help with our servicable problems. We need everyone to help with the work. Sitting back and complaining about what is going on does not benefit Polish Home. If you feel you cannot uphold your oath and the By-Laws in our Constitution, please contact me personally so that we can contact your organization and get a director that is ready to fulfill his duties.

Thank you.

Very truly yours,

Al Jarka, President
